

720-core plug-in type no-patch fiber optic distribution cabinet

Overview

High-capacity fiber optic distribution frame designed for FTTH network applications with maximum 720 cores capacity. This optical distribution terminal box facilitates connection and dispatch of outdoor optical fiber communication links, supporting optical cable, fiber . A 720-core fiber optic cabinet is a high-capacity enclosure designed to manage, protect, and organize large-scale fiber optic networks. The use of fiber optics in the network offers many benefits over conventional copper wire such as increased bandwidth, more flexible installation, small. 720core network odf distribution frame is used for cable fixation, termination, splicing and patching. Feature: Network odf distribution frame support 720core large capacity,high density Modular structure, 72 fibers fusion unit rack mount odf, splicing &. We are good quality supplier of Fiber Optic Cabinet, ODF Optical Distribution Frame, Cross Connect Cabinet from China.
