

# 7503 Core Switch

## Overview

The H3C S7503X, part of the H3C S7500X switch series, is designed for next-generation enterprise core networks. This advanced switch supports high-density, high-performance environments, and delivers unparalleled reliability and scalability. It adopts modular design, uses H3C's. Higher bandwidth of 480 Gbps/slot and increased scalability with up to 288K MAC, up to 104K ARP and up to 256K FIB (depending on the LPU and operational mode) for enhanced switch performance. They feature a modular design, run the proprietary H3C Comware V7 operating system and offer the following features: 3x the throughput per slot and additional performance improvements chassis. Home / Shop / HPE 7503 switch - Managed - rack-mountable The HP 7500 switch series comprises modular, multilayer chassis switches that meet the evolving needs of integrated services networks and can be deployed in multiple network environments, including the enterprise LAN core, aggregation layer. HPE 7503 - Switch - L3 - managed - 16 x 1 Gigabit / 10 Gigabit SFP+ + 2 x 40 Gigabit QSFP+ - rack-mountable The HPE 7500 Switch Series are versatile, high performance modular switches designed to meet the evolving needs of integrated services networks. They can be deployed at the enterprise LAN.
