

Burkina Faso FOB Outdoor Distribution Box 24-core

Overview

Feature highlights: The FDB-24B Fiber Optic Distribution Box is IP65 waterproof, made of durable ABS material, and designed for FTTH, FTTB, and FTTX applications. It features a compact size of 345*270*95 mm, with 2 inlet ports and 24 outlet ports, supporting wall or pole. AZE's Outdoor Fiber Optic Distribution Box is applicable in FTTH project and suitable for building's outer walls application; They can distribute cables after installing splitters and also can draw out room fiber optic cables by direct or cross-connections. The individually installed splicing trays can be easily repositioned as necessary. It is used as a termination point for the feeder cable to connect with the drop cable in the FTTx network system. Its fully enclosed design ensures optimal protection against environmental factors, while the IP65 rating offers resistance to dust. UnitekFiber's waterproof FTTH terminal box is made of high strength plastic, UV-resistant, water resistant, suitable for indoor and outdoor wall and pole mounting and overhead installation.
