

# Busbar no-drill wiring terminals

## Overview

These bars are tin-plated copper and have stainless steel terminals. Busbars set the benchmark for connecting key internal components within high-voltage powertrain assemblies, inclusive of inverters and motors. Stäubli's ZeroBolt busbar connections benefit from our extensive experience in electrical contact technologies and are designed to address the issues. Whether quickconnect terminals, screw terminals, universal conductor terminals or meter plug-in terminals, Hager infeed and terminal technology is characterised by top quality, is easy to install and all components fit together perfectly, meaning that installations work reliably over the long term.
