

Can optical modules be shipped by air

Overview

Certain items cannot be received, stored, shipped, imported and/or exported due to regulatory, hazard, safety or other reasons. Transactions involving these commodities are strictly prohibited, regardless of origin or destination. Good packaging is your first line of defence against damage during shipping – especially when dealing with fragile, high-value, or battery-powered items. Disassemble accessories Remove and separately pack detachable. In fact, not all electronic products can pass through air transportation smoothly! From the rated energy limit of lithium - ion batteries to the strict requirements for special packaging, the regulations for air - transporting electronic products are numerous and complex. Lithium-ion batteries can be shipped by air, but federal and international regulations impose strict requirements based on the battery's energy capacity, how it is. There are certain prohibited items UPS won't ship due to laws or regulations. What Are Prohibited and Restricted Items?

What Are Prohibited and Restricted Items?

Under applicable law, certain goods may be transported only under prescribed conditions and certain goods are prohibited from.
