

Customized high and low voltage electrical complete sets of equipment

Overview

This solution covers a complete set of power equipment from low-voltage distribution cabinets, high-voltage switchgear to transformers, automation control systems, etc., aiming to provide comprehensive and customized power solutions for various users. Our high and low voltage complete electrical equipment solutions are designed based on a deep understanding of the current development trends in the power industry and accurate predictions of future power demand. From match-in-place retrofits to one-of-a-kind configurations, every lineup is engineered for reliability, operator safety, and. IPS now offers Custom Equipment that delivers customized solutions for challenging applications and harsh environments through expert engineering, manufacturing, and fabrication. Weatherproof: IP65-rated enclosures (-40°C to +70°C operation). Flexible terminations: 6~24 cable entries for 1kV/10kV systems. Plug-and-play deployment: Pre-assembled units (2. Our products—such as circuit breakers, relays, and protectors—serve power, industry, and infrastructure sectors with safe, reliable, and eco-friendly equipment worldwide.
