

Distribution Box Finger ProtectorsHow to install

Overview

FSPDBs (sizes 1 to 4) simply snap onto 35mm DIN rail to provide the quickest installation. And since they are modular, you can form any number of poles desired. If multi-pole panel mounting is desired, multiple-pole assembly pins are available. Fingersafe covers IP2X per IEC 60529 are compatible with 1-pole 10-70 A, 2- and 3-pole 10-100 A QOB branch circuit breakers, all QOB circuit breakers must be Fingersafe covers IP2X per IEC 60529 are compatible with 1-pole 10-70 A, 2- and 3-pole 10-100 A QOB branch circuit breakers, all QOB circuit. This bulletin contains instructions for installing, removing and replacing the parts listed below, in a Square D™ brand NQ, NF, I-Line™ or I-Line Combo panelboards manufactured by Schneider Electric. These instructions must be followed to install cables to the main circuit breaker in a panelboard. FSPDBs introduce a new level of safety and ease for installing power distribution blocks. An IP20 level of finger safe protection is achieved using FSPDBs, eliminating the need for special covers or custom plexiglass sheets to protect your panels. Fingersafe® is easy to fit and very reliable when installed correctly and can be completed in a relatively short time. If further advice required or if there is anything that. These UL® Listed, single-pole blocks are of a modular design that permits dovetailing together the required number of poles for an application and still meet the UL 1953 minimum 1" and 2" spacing required per UL 508A for feeder circuit applications and per NEC® for field installations.
