

Distribution box waterproof rating 55

Overview

Our IP55 enclosure provides robust protection for electrical and electronic components in demanding environments. It guards against dust ingress (limited to no harmful deposits) and water jets from any direction, making it ideal for semi-outdoor or industrial indoor applications. (3). Box products are used to contain or enclose materials or equipment in a variety of contexts; plastic or metallic boxes suitable for constructing enclosures for electronic equipment such as guitar pedals, equipment cases for transporting tools or equipment, console style enclosures convenient for. In this article, we explain what an IP55 rating is, how protection against dust and water is achieved, and which design features allow an IP55 enclosure to withstand outdoor and industrial environments. Built with durable materials, CE & ROHS certified. Contact us for custom solutions!.
