

Dutch distribution box enclosure specifications

Overview

Robust full rubber housing, impact resistant, oil-, UV- and acid resistant. Standard IP44 Standards: NEN-60439-1/4/ NEN-1010 CE-Approval. In the environment it is, there is always a proper enclosure for your needs. Thanks to protection ratings and high quality plastic (from 65 x 65 mm up to 361 x 254 mm) plus 3 different cover heights are available with a smooth surface or with multiple metric terminals (glow wire tested level of resistance). Steel enclosures ensure robust protection against dust, splashes, mechanical impacts. Choose one of them. It's not only important to have reliable power, but safeguarding your power distribution with quality environmental enclosures is critical to keep your processes running effectively. Enclosure made of antistatic material with rounded corners and slots for easy carrying and quick hanging. Sockets are bolted on both sides of the box. Input power supply: CEAG plug and flexible cable (H07RNF, 2/3). Index Elektro sells many types of Ex d enclosures.
