

Energy Big Data Center Survey Report

Overview

Conducted by Endeavor Business Intelligence on behalf of ZincFive, this report presents insights from 132 global industry professionals, examining current usage trends, key priorities, and evolving perceptions of energy storage. One year ago, Bloom Energy's inaugural Data Center Power Report documented an emerging reality: AI-driven compute demand was beginning to outpace the grid's ability to deliver power at scale. In April and November 2024, we surveyed data center leaders directly. In Virginia, 25% of electricity already goes to data centers. Smith, Alex Hubbard, Alex Newkirk, Nuoa Lei, Md Abu Bakar Siddik, Billie Holecek, Jonathan Koomey, Eric Masanet, and Dale Sartor Energy Analysis and Environmental Impacts. At MAN Energy Solutions, we are committed to contributing our efficient and sustainable energy generation solutions in this sector, offering guidance and support to companies on this journey. align with our energy solutions. As our next step, the primary objective is to collaborate closely with. THIS DOCUMENT WAS PREPARED BY THE ORGANIZATION NAMED BELOW AS AN ACCOUNT OF WORK SPONSORED OR COSPONSORED BY THE ELECTRIC POWER RESEARCH INSTITUTE, INC.
