

# FC Fiber Optic Adapter Information

## Overview

The FC connector is a fiber optic connector with a screw thread locking mechanism to withstand high-vibration environments. Radiall's FC connector is composed of a plated nickel housing and a 2.5 mm ceramic ferrule and is compliant with the CEI 61754-13 standard. Discover Amphenol FOP's high-precision FC fiber optic adapters—available in bulkhead, feed-through, and flange mount designs, offering durable zirconia and phosphor bronze sleeves. Fibertronics offers a variety of FC fiber optic adapters. These are also known as FC fiber optic mating sleeves and are available in both single mode and multimode variants with either a zirconia sleeve or bronze sleeve. They are also available in simplex with round and square types for flange. What is a Fiber Optic Adapter?

A fiber optic adapter, also known as a fiber coupler, is a passive device used to connect two fiber optic connectors together. Its main function is to align the fiber cores precisely so that light can pass from one cable to another with minimal loss. Have any questions?
