

Four-core fiber optic splice box round to square

Overview

The HTB8007 4 Fibers Indoor FTTH Fiber Terminal Box is a compact fiber terminal solution designed for FTTx and FTTH applications. Known as an FTTx faceplate, this terminal box connects drop cables to ONU devices through its fiber ports, supporting a maximum of 4 fiber connections. Fiber optic splicing metal box for 4 adaptors SC simplex, LC duplex or E2000. All products' documentation is published in PDF (Portable Document Format), which requires Adobe Reader (ver. 5 and newer) software for viewing. Call us on 01234 743039 / 07967 017446 Future-proof high-speed data transmission: Splice boxes from Phoenix Contact ensure continuously reliable real-time data transmission. Splice tray expands fiber splice capabilities. Each tray provides space for mounting fiber. Whether your fiber to the home (FTTH) network design has closures in a buried or aerial environment, one thing remains the same: you need assured environmental protection and quick, incremental subscriber drops.
