

How to hide a fiber optic router in Guinea-Bissau

Overview

A cabinet with cane doors will hide your wi-fi router without blocking the signal, which is extremely important. Wi-Fi routers often clash with home decor, standing out as eyesores in otherwise stylish spaces. Conceal Within a Bookshelf Image by rawpixel. com on Freepik. Hiding a wi-fi router most of us go traditional way: put it into a pantry, a walk-in closet or some other not very often visited space. But what if you have very thick wall and the signal is blocked or too weak?

What if you have a very large home and the signal doesn't come where needed?

Then there. Luckily, it's easy to hide an internet router and modem, and you can definitely disguise or camouflage them so that it fits the vibe of your home. If you have seen my Pinterest, you'll know how much I love hiding unsightly electronic products – I have a dedicated board. There are few aesthetics and styles that pair well with all of those blinking lights, which is why we've put together a few tips on how to hide that pesky bit of tech in your home. Transform your space into the home of your dreams with trusted.
