

Huawei 48-Port Fiber Optic Core Switch

Overview

The Huawei CE6881-48S6CQ-B is a high-performance switch designed for enterprise networks. This switch, identified by its model number ce6881-48s6cq-b, is part of Huawei's advanced network solutions, offering robust data handling capabilities and secure connectivity. Within the fast-paced world of industrial networking, the S5735-L48P4X-A Huawei switch provides a "simplified" yet powerful architecture. CE6881-48S6CQ Switch is next-generation 10GE access switch with 48 x 10GE SFP+ ports and 6 x 100GE QSFP28 ports. On the front side, there are also two SFP+ ports for stacking (configuration available only via CLI), 2x RJ45 for management and console, a USB port, and a reset button. On the back, it is equipped with.
