

Huawei core switch S7703 usage

Overview

S7703 Switch is a new generation of high-end intelligent routing switches introduced by Huawei for the next-generation enterprise network architecture. It is widely used in campus networks and data centre core/aggregation nodes to provide advanced control over wireless, voice, video. S7700&S8700&S9700&S12700&S16700 Series S7703: Access product manuals, HedEx documents, product images and visio stencils. The S7700 design is based on Huawei's intelligent multi-layer switching technology to provide intelligent service optimization methods, such as MPLS VPN, traffic analysis, comprehensive H-QoS policies, controllable multicast, load. Smart Routing Switch supporting 2* MCUs, 3*LPUs, and AC or DC power modules in 1+1 backup mode. Agile features supported in V2R5C00 and later versions 3. Left-to-rear air flow, high-density wiring 5.
