

Industrial Remote Control Power Distribution Box

Overview

This intelligent power distribution unit (PDU) remotely manages and controls the power supply of up to 4 devices via TCP/IP and network connection. Ideal for remote control and management of electrical equipment, whether commercial, residential or industrial. It has the functions of monitoring the low-voltage side load and frequency of the distribution transformer, collecting power, and controlling the. Military Connectors or Power Studs BENEFITS Replaces Conventional Circuit Breakers, Switches, and Relays Increases System Reliability Less Weight and Space Consumption EMI Reduction Network-enabled Remote Load Control Optimize. Receive updates on this section every two weeks. This highly customizable unit offers a choice of standard or rack depth cabinets with up to four panel boards, each with 42 circuit breakers. With its small form factor, this.
