

Is direct connection of a router to fiber optic cable a good idea

Overview

You can't directly connect a fiber optic cable to your router. You need an intermediary device. This comprehensive guide combines industry standards with field-tested practices to ensure you achieve a rock-solid. Because I can, I replaced our NTU (Network Termination Unit) that converts optical to electrical signals, and directly coupled the fiber into my MikroTik router. Among other things, I cover TX/RX wavelengths, fiber ends. Fiber optic internet delivers blazing-fast speeds and reliable connectivity, making it a top choice for modern homes and businesses. [org/wiki/Network_interface_device#Optical_network_terminals](https://www.mikrotik.com/wiki/Network_interface_device#Optical_network_terminals) Some ISP's use ONT's that have integrated routers - its easier for THEM but it gives them more control over. By decoupling the connection between devices with fiber-optic cable, fiber networking can also prevent electrical interference. This device receives the fiber.
