

Manufacturer of seismic bracing for two-way cable trays

Overview

For over 60 years, Eaton has manufactured TOLCO seismic bracing and B-Line series cable tray, strut systems, pipe hangers and more that support electrical, mechanical, plumbing, and fire protection applications. TOLCO seismic cable bracing systems are ideal for projects with extended drop lengths or have limited space for seismic bracing. The B-Line series seismic bracing cable kit system is up to 50% faster to install over traditional cable. Founded in 2006 as a subsidiary of Çemesan Group, which has been operating in the steel industry for nearly 40 years, Eurotray is an established steel manufacturer with production facilities in Turkey and a subsidiary company in Germany. Subscribe for the latest news, trends, and innovations in the. The EasyBbox EF5CK Series Seismic Cable Restraint Kits are engineered to secure suspended non-structural components—such as ductwork, piping, conduit, cable trays, and HVAC equipment—against seismic, wind, and blast forces. Designed in compliance with ASCE 7 and the International Building Code. Guangdong Wopusai Mechanical and Electrical Co.
