

Palestinian Communication 24-Core Optical Cable

Overview

24 core SM dry earth fiber optic cable (OBUC) is PBN brand with non-zero dispersion with cores (ITU-G6155). Palestine (consisting of the Gaza Strip and the West Bank) has access to telephone, radio, television, and Internet services; however, it significantly trails behind global standards in these sectors. The communications landscape in Palestine is hindered by several challenges, including. Duracom Contracting and Telecommunications Co. Founded with the vision of creating a strong Palestinian alternative in the telecom industry, Duracom has grown into a. Urgent communication crisis: Communication disruptions have severely limited the ability of populations in Gaza to share and receive information. Lack of connectivity to the internet is impacting the population's access to digital channels and online social platforms, which have been crucial. Following the internet outage across the Gaza Strip, the Palestinian Communications Ministry announced that the cause is "an attack on the last active optical fiber line. " According to the statement from the ministry, which is based in the Palestinian Authority in Ramallah, "This dangerous. Palestinians charge their mobile phones from a point powered by solar panels provided by Adel Shaheen, an owner of an electric appliances shop, as electricity remains cut during the ongoing Israeli-Palestinian conflict, in Khan Younis in the southern Gaza Strip October 19, 2023.
