

Smart Pricing for Active Optical Devices for Data Center Interconnects

Overview

Custom length, color, and private labeling are available upon request. We also offer same-day shipping on multi-vendor coded solutions (something the OEMs do not provide), because we understand your need for AOCs to operate promptly. Custom length, color, and private labeling are available upon request. We also offer same-day shipping on multi-vendor coded solutions (something the OEMs do not provide), because we understand your need for AOCs to operate promptly between different switch and server manufacturers. We do extensive testing for functionality and compatibility in our lab, which includes all major OEM switches and server cards. Save up 70% off major OEMs, including Cisco, Juniper, Arista, Nokia, Dell, Broadcom, Intel, and Mellanox. Quick turnaround solutions for immediate purchasing needs and evaluations. We ship large quantities in under three weeks on most form factors, nearly eight times faster than Amphenol, Siemon, Molex, Finisar, Intel, and Mellanox.
