

What quota applies to the 288-pin LC interface patch panel

Overview

This RM-288 patch panel has two sections for fiber optic cable entry and exit. It can be pre-configured with up to 24 MTP-LC cassettes, up to 288 pass-through LC, SC, ST, or FC ports, and up to 144 fiber splicing capacity. LCX 72, 96, 144 or 288 Port/4RU loaded or unloaded patch panel. Amphenol Network Solutions' bulkhead-style fiber. The U-Series 2RU Pass-Through Patch Panel can house up to 12 U-Series patch adapter plates with the capacity to scale up to 288 LC and 144 SC ports. Compact to facilitate installation in shallow-depth racks, it allows for front and rear cassette installation and is compatible with U-Series MPO. The panel is 11 inches (27. MASS FUSION SPLICE CHIP SPLICE TRAY ACCESS DOOR OSP OR IFC CABLE INTERNAL PIGTAILS 23203-A. OptoSpan's Select RM-288 Rack Mount Termination and Splicing Enclosures provide a convenient, secure and organized housing for fiber optic connections and terminations, as well as a central point for splicing fiber optic cables for data center and telecom applications. The RM-288 Rack mount fiber. The panel design is based on a five rack unit height with a master plate that is provisioned with 12 LGX ® 170 compatible mounting positions that can accommodate adapter plates, XFM ® optical cassettes, passive optical modules or any combination therein.
